**CORRECTION**

Errors in Continuing Medical Education Questions and Answers: In the Continuing Medical Education article “Dialectical Behavior Therapy for High Suicide Risk in Individuals With Borderline Personality Disorder: A Randomized Clinical Trial and Component Analysis” published in the May issue of *JAMA Psychiatry*, errors appeared in some questions and answers. For question 3, option D should have been 24%. For question 4, the question should have been, “Which treatment(s) resulted in the fewest number of nonsuicidal self-injuries?” And for question 5, the question should have been, “During the treatment year, depression symptoms improved most with: ” and option E should have been omitted. This article was corrected online.
